10. Troubleshooting

Cannot see 💰 Finalize Fee button

- Enquiry must be in `INTERESTED` status
- If status is `ENQUIRED` → Update status to `INTERESTED` first from the status dropdown
- If status is already `FEES_FINALIZED` → Fee is already done, skip to payment

Admission Creation is disabled / greyed out

- Check that **all 7 mandatory documents** are uploaded (UPLOADED or VERIFIED status)
- Verify enquiry status is `DOCUMENTS_SUBMITTED`

- If stuck at `FEES_PAID`, go to Document Submission, upload docs, then submit

Fee amount shows as ₹0 or incorrect amount

- Check fee structure exists for the student's program and academic year
- Navigate to Preferences → Fee Structures → Search program
- If missing, create fee structure with correct year amounts
- Then re-attempt fee finalization

Document rejected — Medical Fitness Certificate

- Must be from State Medical Council registered doctor
- Certificate must be dated within last 6 months
- Must mention "fit for nursing study" explicitly
- Must have doctor's stamp and signature
- Ask student to get a fresh certificate

Student has duplicate enquiries

- Search student's phone number in enquiry list
- Identify the correct (most recent) enquiry
- On the duplicate, change status to `CLOSED`
- Continue processing the correct enquiry

Keycloak session expired

- You see "Session expired / unauthorized" error
- Refresh the browser page (F5)
- You should be automatically redirected to Keycloak login
- Log in again with your credentials
- Session typically lasts 8 hours
